#### AMENDMENTS TO THE SPECIFICATION

**Please replace paragraphs [0015]-[0017] of the Specification as filed with the following amended paragraphs:**

[0015] Figure 4 a-f shows normal human bladder epithelial cells in passage 6 with antibodies to keratins 18, 19, and 14. Bladder cells express keratins 18 and 19, as do normal bladder cells *in vivo*, but do not express keratin 14, which bladder cells *in vivo* also do not express.

[0016] Figure 5 a-d shows that normal human bladder epithelial cells in passage 6, incubated with an antibody to keratin 7, express keratin 7, as do normal cells *in vivo*.

[0017] Figure 6 a-e shows normal human bladder epithelial cells in passage 6 incubated with an antiserum to the tight junction ZO1 protein. Bladder cells connect to their neighboring bladder or LA7 feeder cells by tight junctions
